FULFILLING U OF M LIBERAL EDUCATION REQUIREMENTS

All University of Minnesota degrees require the completion of specific Liberal Education requirements. These Liberal Education requirements can be completed at most community colleges and universities for transfer to the U of M. State community colleges also offer the **MN Transfer Curriculum** which—if completed and certified on the transcript sent to the U of M for admission—will be used to meet all Liberal Education requirements at the U of M. Talk to your community college counselor about this option!
